Please note that the low percentage reported in ***PERCENT OF TRIALS/HEARINGS APPEALED (YEAR TO DATE)*** is due to the implementation of a new appeals procedures, which took effect in June 2003 for criminal, environmental, and Order of Protection/Injunction Against Harassment appeals. Specifically, the court can not file these types of appeals with the Superior Court until the court receives the Appellant's Memorandum from the defendant. This can take up to 90 days. As the fiscal year progresses a truer picture of appeals will begin to emerge.
